About Us

MAG Group (MAG) is a global integrated enterprise that develops, operates, and maintains impactful projects across multiple sectors, supported by a unified network of 45 companies around the world.

MAG comprises five business groups that operate across the key industries of technology (aviation and eGovernment services), government services outsourcing, real estate, financial services, and trade and investment.

Moving beyond the traditional fragmented project delivery model, MAG adopts a comprehensive turn-key framework built on strong partnerships and unified governance.

Our Principles

Integrity and Transparency

The Group was founded on principles of integrity and transparency. As a trusted technical and non-technical partner to governments, MAG recognizes its responsibility to the citizens who rely on its services. Fulfilling this responsibility requires transparent conduct and a culture of integrity embraced by every employee across the Group.

Innovation and Impact

For more than two decades, MAG has delivered critical digital infrastructure around the world, driven by a culture of continuous innovation. These innovations had a significant impact on the lives of citizens and accelerated growth across multiple sectors. This legacy serves as a testament to our commitment to achieving meaningful impact through innovation, a lasting core principle of the Group.

Customer-Centricity and Accountability

Our commitment extends far beyond service delivery. We understand that the real relationship begins at handover, where our customer-centric values take full shape. By providing seamless post-delivery support, remaining accountable in the face of challenges, and continually elevating the customer experience, we reinforce the trust placed in us.

The Story Behind the Numbers

DATA CENTERS

Through its subsidiaries, the group has been able to maintain the trust of its partners and investors in the public and private sector and achieve notable success in every area of investment with over 20 offices and a subsidiary with over 6 data centers worldwide by providing state of the art Information Technology solutions and investment opportunities to our partners, customers and investors.

DRIVERS LICENSES ISSUED

An affiliate within the group has been able to provide Information Technology solutions that have facilitated the smooth processing and issuance of over 10 million drivers' licenses.

ENABLED SOME PAYMENT SERVICE SOLUTION PROVIDERS (PSSP) TO BE UNICORNS.

A subsidiary within the group has also successfully connected with seven Central Bank Nigeria licensed payment service providers to enable their payment service solutions which empowered some of them to achieve unicorn status.

FOREIGN CURRENCY BANK NOTES EVACUATED

An entity within the group has successfully Implemented foreign currency banknote evacuations worth over USD 10 billion between 2018 to 2022.

VISA APPLICATIONS PROCESSED.

An affiliate within the group has successfully processed over 6 million biometric visa applications and over ninety million passport applications all thanks to solid implementation of our cutting-edge Information Technology solution platforms.

Our History

Years and years of driving change and non-stop innovation.

2002

Founding of Socketworks Nigeria Limited

Socketworks Nigeria Limited was established, marking the Group's entry into technology-enabled services and laying the foundation for its future portfolio of innovative enterprises.

2007

IFC Investment

The International Finance Corporation (IFC) invested in the company to support the rollout of critical e-Education infrastructure in Africa.

2009

Incorporation of Pay4Me

The International Finance Corporation (IFC) invested in the company to support the rollout of critical e-Education infrastructure in Africa.

2012

Incorporation of Online Integrated Solutions

Online Integrated Solutions was incorporated in London as the exclusive partner of the Nigeria Government for the application process and management of label visas. This marked the Group's formal expansion into Europe and the establishment of its Regional Headquarters.

2013

Expansion into Financial Services and Border Technologies

Several major companies were founded, including Innovate1Pay as a licensed financial institution and Newworks Solution & Investment Limited as a key enabler in border-control technologies and advanced aviation solutions.

2015

Acquisition of NetPost Ltd

The Group strengthened its portfolio through the strategic acquisition of NetPost Ltd, expanding its eGovernment services capabilities.

2021

Incorporation of Entrusted, Payfixy, MAG International Links

Two new companies, Entrusted, Payfixy, and MAG International Links were incorporated to further diversify the Group's service offerings in line with emerging global opportunities.

2021

Global Recognition

The Group Chairman was appointed President of Nigerian Arabian Gulf Chamber of Commerce, reinforcing the Group's reputation and leadership within the international governance community.

2025

Relocation of Global Headquarters to Dubai, UAE

The Group transitioned its Global Headquarters to Dubai, United Arab Emirates, positioning itself within a world-class innovation ecosystem and strengthening access to global markets.

Our Products

Biopulse is our flagship proprietary solution comprising of an Automated Biometric Identification System

Biopulse is an Automated Biometric Identification System (ABIS) and a superset of Automated Fingerprint Identification System (AFIS). It is a multi-biometric identity ecosystem built with compliance, security, and improved experience while lowering operational costs using a converged identity platform approach which supports civil and criminal identity datasets with an option to deploy on-premises, in the cloud or hybrid architecture.

E-immigration Solution

A Simplified Self-service Immigration System and Platform

Membership Management Solution

Automating membership management processes

Enterprise Resource Planning System

Optimized business operations powered by ERP systems

The Smart Crowdfunding Solution

The simplified, do-it-yourself way to raise money for business.

Integrated Tax Management Solution

Enhancing tax management operations.

HRMIS

Future-centric HR Management

Integrated Postal Management System

Building the postal service of tomorrow, Today.

Projects and Initiatives

1.

City Walk (Abuja)

City Walk is a mixed-use urban development spanning 220 hectares in the heart of Nigeria's capital. Conceived as a city within a city, the development will host key industries including healthcare, technology, finance and banking, education, and entertainment within an integrated, modern ecosystem.

www.citywalkabuja.com

2.

Smart Gates

Networks Solution has deployed, and is currently deploying, Smart Gates (e-Gates) at all international airports in Nigeria. The e-Gates are integrated with advanced software designed and developed by the Networks Solution's team to automate immigration clearance and conduct all pre-clearance checks, including watchlist verification, in real time.

3.

Advance Passenger Information System (APIS)

Networks Solution designed and implemented the Advance Passenger Information System (APIS) for Nigeria. Through its strategic partnership with International Air Transport Association (IATA), Networks is activating this now mandatory system at the borders of African countries.

Projects and Initiatives

4.

Driver's License

SW Global has designed, implemented, and currently maintains a comprehensive digital system for the application and issuance of driver's licenses in Nigeria. The project streamlines the entire licensing process from online application and secure payment processing to test scheduling and final issuance of both digital and physical licenses.

5.

Passenger Service System (PSS)

MAG Solutions has designed an advanced Passenger Service System (PSS) as part of its suite of aviation technology solutions. The system's architecture integrates all core components, within a unified digital framework. This comprehensive solution enables airlines to efficiently manage their operations, optimize resource utilization, implement dynamic pricing strategies, and enhance customer relationship management.

6.

Private Jet Aggregation Platform

Networks Solution, in collaboration with MAG Solutions, has designed a Private Jet Aggregation Platform dedicated to reintegrating idle and underutilized private jets into a commercial leasing ecosystem. Through this integrated platform, private jet owners can list their aircraft for rapid leasing, while clients gain on-demand access to a diverse fleet of jets with full transparency and service assurance. The system also manages aircraft maintenance, operational logistics, and premium customer services, offering a unified platform for leasing, chartering, and end-to-end private air travel management.

Projects and Initiatives

7.

Integrated Diaspora Service Centre

Online Integrated Solutions has established over 30 physical centres dedicated to the provision of e-government services for citizens in the diaspora. These centres are equipped with identity-verification systems and biometric-enrollment facilities and are fully integrated with government backend systems to support the seamless delivery of citizen services. OIS is currently serving the Federal Government of Nigeria and the United States of America.

A bilateral trade and investment association dedicated to the development of business relationships and economic contacts between Nigeria and all the GCC countries.

Sustainability

Sustainability guides every aspect of our development and decision-making. We design and operate with environmental responsibility in mind, integrating efficient resource management, renewable energy solutions, and sustainable practices that ensure long-term value creation for both the community and the environment.

Corporate Governance

Strong corporate governance defines how we lead, manage, and grow. Our framework promotes transparency, accountability, and ethical conduct across all levels of the organization. Through disciplined oversight and responsible leadership, we safeguard stakeholder trust and ensure integrity in every action.

Compliance

Compliance forms the foundation of our operational credibility. We adhere to all applicable laws, regulations, and internal policies while maintaining rigorous standards of ethical behavior. Continuous monitoring and evaluation help us uphold best practices and minimize risk across our activities

Corporate Social Responsibility

We are committed to making a positive social impact beyond our business objectives. Our CSR initiatives focus on education, community development, innovation, and sustainability—empowering individuals and improving quality of life. Through these efforts, we contribute meaningfully to inclusive and enduring growth.
